We are pleased to invite you to submit an abstract for an oral or poster presentation of no more than 300 words to the 2<sup>nd</sup> “Vietnam Conference on Earth and Environmental Sciences” (VCEES-2022). The primary goal of the VCEES is to provide a premier interdisciplinary forum for researchers, practitioners, and educators to present and discuss the most recent innovations, trends, concerns, and advances in the fields of Earth and Environmental Sciences. Additionally, by bringing different fields together, the conference also aims to foster networking and collaboration among diverse participants, thereby promoting research and developmental activities in Earth and Environmental Sciences.
